Dip to black might also produce some weird results with multiple layers or transitions stacked upon each other. It used to be worse in previous versions (the example shown in the video mentioned at the beginning would fade the whole sequence to black upon encountering the video due to a bug in render order in CS3), but still dip to black will fade all layers below itself to black, not only the ...

If repairing the catalog doesn't help, repeat the steps above, but instead of clicking Repair, click New to create a new test catalog. If you're able to import photos into the new catalog and the Organizer works correctly, then there's likely something about the old catalog that is corrupted in some other way. In that case, try recreating the Organizer's thumbnails.
