Environmental Epidemiology - Jones & Bartlett Learning

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits. Modern scholarship regards race as a social construct, an identity which is

The origins of Palestinians are complex and diverse. The region was not originally Arab – its Arabization was a consequence of the inclusion of Palestine within the rapidly expanding Arab Empire conquered by Arabian tribes and their local allies in the first millennium, most significantly during the Islamic conquest of Syria in the 7th century. . Palestine, then a Hellenized region ...

In addition to changes in nursing practice and education, discussed in Chapters 3 and 4, respectively, strong leadership will be required to realize the vision of a transformed health care system. Although the public is not used to viewing nurses as leaders, and not all nurses begin their career with thoughts of becoming a leader, all nurses must be leaders in the design, implementation, and ...
