Performance-wise, nothing beats the Electrolux EFLS627U. Professional tests show that it's better at removing deep, nasty stains than other washers. The downsides are that it usually costs more than our main pick, the typical cycle time will be much longer, and it might be a little rougher on some fabrics.

Would raising the temperature setting help? Nope, I've tried that. In fact, it actually seems to make matter worse, at least it did whenever I've tried that. I think it's because the frost buildup starts melting more profusely during defrosts, increasing the odds a stray drip will freeze on the fan blades. I've actually had better luck lowering the temperature, though I can't figure out why ...
