Solution Manual for Principles of Physics 9th Edition Halliday. Average speed, as opposed to average velocity, relates to the total distance, as opposed to the net displacement. The distance D up the hill is, of course, the same as the distance down the hill, and since the speed is constant (during each stage of the motion) we have $\text{speed} = D / t$.

Or if you want to download them, you can download them one by one as you proceed further in the book accordingly from the same place, the solutions are in the image format. If you want..

How to get solutions to book Principals of Physics 10 ...

The required text in my college physics class was extremely unclear, so I asked my professor what his favorite text was. He told me that in over 30 years of teaching physics at college he likes this one and the first edition of this text the best. He calls it the bible of physics, and still turns to it to prepare for lectures.
