Natural Language Processing: Overview

1. Text Classification. Text classification refers to labeling sentences or documents, such as email spam classification and sentiment analysis.. Below are some good beginner text classification datasets. Reuters Newswire Topic Classification (Reuters-21578). A collection of news documents that appeared on Reuters in 1987 indexed by categories.

Datasets for Natural Language Processing

NEURAL CONTROL OF SWALLOWING The brain communicates with muscles via upper motor neurons and lower motor neurons. The upper motor neurons (UMN) communicates signals from the brain to the lower motor neurons (LMN) which are the final neurons connecting to muscle fibers. Cranial nerves, whose axons leave from the brainstem, are the lower motor neurons for the vast majority of muscles involved in ...
